Monday 20 th March	Progress Meetings – Virtual
Wednesday 22 nd March	Progress Meetings – in person
Wednesday 22 nd March	Reception trip to the Science Museum

Although this week was only short, this didn't stop us from getting stuck into our Science Week activities. In Early Years, the focus was 'Connecting locations'. Within the phase, we explored transport and how we can connect with different places around the world. We discussed the different forms of transport we use to travel short vs long distances. On Tuesday, we completed a carousel between all three classrooms. In each class we explored and made different ways of connecting; boats, aeroplanes and bridges. The children loved learning in different classrooms and getting hands on with their experiments.

Messages

Tissue Donations

As the weather has become colder again, if anyone is able to donate boxes of tissues, please hand them to your class teacher.

Progress Meetings

Please can we remind you to book a progress meeting with your class teacher. This is a great way to hear how your child is getting on personally, socially, emotionally and academically. A letter was sent with information.

Congratulations to our Stars of the Week

Nursery – Nehemiah

RE – Allegra

RM – Aidan

Reception

This week

This week in Reception, we enjoyed learning how to complete a tally chart; asking our friends how they travel to school and comparing our findings.

Next Week

Personal, Social and Emotional Development

We will continue to learn to understand our emotions and recognise which zone we are in.

Communication, Language and English

We will be expanding our vocabulary when talking about topics such as space. We will be developing our ability to write a list using our phonics. In Phonics we will be reviewing all taught sounds and HRSW.

Understanding the World

We will be exploring the topic of space; learning about what space consists of, the role of an astronaut and expanding our understanding with a trip to the Science Museum.

Mathematics

We will be developing our knowledge of numbers to fifteen, looking at one more and one less and composition of number.

Religious Education

We will be talking about the Christian story of Jesus on the Cross.

Nursery

This Week

Nursery loved watching the cereal box experiment take place! Each box was lined up and we learnt that by touching only one box, each of them connected, causing them all to fall down!

Next Week

Personal, Social and Emotional Development

This week we will continue to understand our emotions and talk about how we feel.

Communication, Language and English

We will be learning new words related to the topic of space and practise using these in full sentences. In phonics we will learn the sounds h and b.

Physical Development

We will continue to use physical activities within our toolkits to help us get back into the green zone.

Mathematics

We will continue to combine our knowledge of shapes and pattern to make ABCABC patterns.

Understanding the World

We will be exploring the topic of space; thinking about what space is and what is within.
